

AZOXY 50 WDG SELECT[™]

Long term, broad spectrum fungicide

ACTIVE INGREDIENT

Azoxystrobin – Group 11

% ACTIVE INGREDIENT

Azoxystrobin 50.0%

FORMULATION

Water-dispersable granule

CHEMICAL FAMILY

Strobilurin/Qol inhibitors

BRAND ALTERNATIVE

Heritage[™] 50 WDG

MODE OF ACTION

Acropetal penetrant

RESTRICTED USE

No

SIGNAL WORD

Caution

PACKAGING

6 x 1 lb, 2 x 6 lb

LABELED USES

- Golf turf
- Residential turf
- Commercial turf
- Institutional and industrial turf
- Parks/Rec
- Athletic fields

Azoxy 50 WDG Select[™] is a systemic fungicide, designed to achieve control of some of the toughest turf diseases, such as brown patch, fairy ring, leaf spot and yellow patch. Total protection is achieved through a combination of foliar and root absorption. Highly systemic and with a higher than average degree of root uptake, **Azoxy 50 WDG Select[™]** provides continuous protection to the whole plant for up to 28 days.

PRODUCT BENEFITS

- Defends against both soil borne and foliar diseases
- Provides continuous protection for up to 28 days
- Complete root-to-leaf distribution
- Constant delivery for even distribution to new growth
- Greater degree of root uptake when compared to other strobilurins
- Prevents spore germination, thereby preventing many fungal infections
- May be used during over-seeding of dormant turfgrass
- Does not impact honey bees and other beneficials

AZOXY 50 WDG SELECT™

Long term, broad spectrum fungicide

APPLICATION INFORMATION

Azoxy 50 WDG Select™ may be applied as a foliar spray in alternating spray programs, or in tank mixes with other registered pesticides. **Azoxy 50 WDG Select™** is compatible with many commonly used fungicides, liquid fertilizers, herbicides, insecticides and biological control products. If tank mixes are desired, observe all directions, precautions and limitations on labeling of the most restrictive product label used.

Azoxy 50 WDG Select™ can be used for control of certain pathogens causing foliar, stem, and root diseases including leaf and stem blights, leaf spots, patch diseases, mildew, molds and rusts of turfgrass plants. Use **Azoxy 50 WDG Select™** to control certain diseases on golf courses, lawns and landscape areas around residential, institutional, public, commercial, and industrial buildings, parks, recreational areas and athletic fields.

Azoxy 50 WDG Select™ is most effective when applied prior to disease development. Mix **Azoxy 50 WDG Select™** with the required amount of water and apply as a dilute spray application in 2-4 gallons of water per 1,000 square feet (87-174 gallons per acre). Repeat applications at specified intervals for as long as required. For spot treatments use 0.2 oz. **Azoxy 50 WDG Select™** per 1 to 2 gallons of water. Do not apply more than 10 lbs. product/acre/year (3.7 oz. product/1,000 square feet/year). Make applications by ground only.

Labeled diseases

| | | | |
|--------------------------|--------------------|--------------------------------|-----------------------|
| Anthracnose | Gray snow mold | Powdery mildew | Stripe rust |
| Brown patch | Leaf spot | <i>Pythium</i> blight | Southern blight |
| Brown ring patch | Leaf rust | <i>Pythium</i> root rot | Summer patch |
| Cool weather brown patch | Melting out | Red thread | Take-all patch |
| Fairy ring | Necrotic ring spot | <i>Rhizoctonia</i> large patch | <i>Typhula</i> blight |
| <i>Fusarium</i> patch | Pink patch | Spring dead spot | Yellow patch |
| Gray leaf spot | Pink snow mold | Stem rust | <i>Zoysia</i> patch |
