

DEFOAMER SELECT[™]

Prevents and eliminates foam

**PRINCIPAL
FUNCTIONING AGENT**
Dimethylpolysiloxane

% ACTIVE INGREDIENT
10%

FORMULATION
Concentrate

MODE OF ACTION
Antifoamer

RESTRICTED USE
No

EPA REGISTRATION
N/A; All ingredients are
exempt from tolerance
under 40 CFR 180

SIGNAL WORD
Caution

PACKAGING
12 x 1 qt, 4 x 1 gal

LABELED USES
Tank mixtures

Defoamer Select[™] is a water-based, silicone emulsion, antifoam and defoamer that can be used to prevent foam formation or knock down existing foam. Reducing and eliminating foam during tank mixing, allows the product to be more thoroughly agitated during the process and reduces the threat of chemical spills. Factors contributing to the creation of foam include the pesticide being used, the temperature and viscosity of the tank mix components, the amount of agitation required along with other conditions. **Defoamer Select[™]** controls foam formation by penetrating the walls of the foam bubbles, causing them to collapse.

PRODUCT BENEFITS

- Does not affect efficacy of active ingredient
- Prevents foam from forming
- Knocks down existing foam
- Safe and easy to use with any tank mix
- Does not harm turf, ornamentals or other plants
- Reduces mixing time
