

# TEBUCONAZOLE 3.6F SELECT™

Systemic fungicide for the prevention and control of turf and ornamental diseases

## ACTIVE INGREDIENTS

Tebuconazole – Group 3

## % ACTIVE INGREDIENT

Tebuconazole . . . . . 38.7%

## FORMULATION

Suspension concentrate

## CHEMICAL FAMILY

Triazole

## BRAND ALTERNATIVE

Torque™

## MODE OF ACTION

Demethylation inhibitor

## RESTRICTED USE

No

## SIGNAL WORD

Caution

## PACKAGING

4 x 1 gal

## LABELED USES

Golf course turf only

Nursery ornamentals

Commercial

landscape ornamentals

Residential

landscape ornamentals

**Tebuconazole 3.6F Select™** provides long-lasting systemic, preventive and curative disease control to protect your ornamentals and golf course turf. Effective against anthracnose, dollar spot, brown patch and other patch diseases, fairy ring, gray leaf spot, snow molds and many more difficult to control diseases.

## PRODUCT BENEFITS

- Preventive and curative properties
- Provides control up to 21 days
- Acropetal (upward) movement
- Rapid uptake (4 hours)
- Highly compatible tank mix partner
- Low use rates

# TEBUCONAZOLE 3.6F SELECT™

Systemic fungicide for the prevention and control of turf and ornamental diseases

## APPLICATION INFORMATION

### Turf

For use on all golf turf applications of cool season and warm season grasses (such as bentgrasses, bluegrasses, fescues, ryegrasses, St. Augustine grasses, and Zoysia) or their mixtures. **Tebuconazole 3.6F Select™** is not phytotoxic to any of the above mentioned grasses when used in accordance with the label.

**Note:** Bermudagrass can be sensitive to **Tebuconazole 3.6F Select™** under certain conditions. **DO NOT** apply consecutive applications during or just after dormancy break. Avoid applications when temperatures are expected to exceed 85°F.

### Restrictions

- For use on golf course turf only.
- **DO NOT** use on home lawns and turf sites associated with apartment buildings, daycare centers, playgrounds, playfields, recreational park athletic fields, athletic fields located on or next to schools (i.e., elementary, middle and high school), campgrounds, churches, and theme parks.
- Not for homeowner use.
- Not for use on turf being grown for sale or commercial use as sod.
- **DO NOT** use clippings for animal feed.
- **DO NOT** exceed 3.6 fl. oz. of **Tebuconazole 3.6F Select™** per 1,000 sq. ft. per year.
- **DO NOT** apply more than 6 applications/year except in New York. In New York State, do not apply more than 3 applications/year.

### Field, nursery and container ornamentals and commercial and residential landscape applications:

**Tebuconazole 3.6F Select™** can be used in a preventative and curative disease control program for the listed plant types and disease in the table below. Optimum disease management is obtained when **Tebuconazole 3.6F Select™** is used in conjunction with sound disease management practices. Apply material with properly calibrated hand held, mechanical or motorized spray equipment. Begin applications when disease first appears and repeat at 14-21 day intervals during the growing season. Use the shortest interval when conditions are unusually favorable for the development of disease.

### Restrictions

- For use on ornamental plants only; not for use on woodlands or forest management.
- Not for homeowner use.
- Do not apply more than 10 fl. oz. per acre in a single application.
- Do not apply more than 0.31 gallons (40 fl. oz.) of **Tebuconazole 3.6F Select™** (equal to 1.13 lbs. of \ tebuconazole) per acre per year.
- Do not make more than 4 applications per year at highest rate.
- Do not apply to bearing fruit trees or vegetables.

### Labeled turf diseases

Anthracnose	Gray snow mold	Rusts
Bermuda grass decline	Large patch	Spring dead spot
Brown patch	<i>Microdochium</i> patch	Stripe smut
