<p>Call a poison control center or doctor immediately for treatment advice. Have the product container with you when calling a poison control center or doctor, or going for treatment.</p>	

GENERAL INFORMATION

Turf Marker Blue WSB Select is a highly concentrated blue dye powder, in ready to use water-soluble packets. When added to tank mixes and application water, **Turf Marker Blue WSB Select** will produce a natural blue color wherever application is made. Using **Turf Marker Blue WSB Select**, pesticide applicators will be able to see where they have sprayed. **Turf Marker Blue WSB Select** aids the applicator by helping to indicate skips, prevent oversprays and indicate off-target movement of spray droplets. This assists in reducing cost by diminishing waste and resprays. The dyes in **Turf Marker Blue WSB Select** are used in food, drugs and cosmetics and are allowed for use in the environment.

Turf Marker Blue WSB Select will color any surface a blue color including soil, plant materials, rocks, stones and other areas. The dye can either be washed off with soap and water or allowed to fade naturally. It may be permanent or long-lasting on certain porous surfaces such as unsealed concrete or brick. Caution should be used around these types of materials.

Adequate amounts of spray and dye concentration are needed in order to ensure visibility. To make the areas marked by the dye darker, one or both of two changes can be made. More solution per unit area can be used. This may necessitate a decrease in concentration of certain ingredients other than the dye. Or the dye concentration may be increased by adding more to the same volume of spray solution. The amount and concentration of dye and spray solution will need to be adjusted according to conditions such as plant height, thickness and color, soil conditions and light conditions and the volume necessary to spray other tank mix components.

TURF MARKER BLUE WSB SELECT™

SPRAY PATTERN INDICATOR

This product is non-toxic under OSHA standard 29 CFR 1910.1200 and SARA Title III. This product contains no chromium or other inert metals which are listed as inert hazards by California Proposition 65 or other regulatory guidelines.

Turf Marker Blue WSB Select may be added to ornamental lakes, ponds, fountains, water hazards, and other contained bodies of water, to achieve the desired blue color. **Turf Marker Blue WSB Select** should not be used in streams, rivers, out flows, or water that is not completely controlled by the user. **Turf Marker Blue WSB Select** may be used if areas of irrigation but is not for human consumption. Under normal use swimming and other water sports are allowed during and immediately following the use of this product. Wildlife will not be harmed with normal use of this product. **Turf Marker Blue WSB Select** is packaged in easy to use water-soluble packets.

These packets will prevent contact with the colorant for the applicator. Calculations are simplified. Use the rate chart below for suggested rate usage of **Turf Marker Blue WSB Select**.

APPLICATION USE RATES

Turf or marking dye: Place packet(s) into well agitated tank and allow to dissolve completely for use. Aquatic colorant: Place packet(s) in area to be treated. Placing the packets in stirred or moving areas will cause more efficient dispersion of the dye.

Turf Marking Suggested Rates per 50 gal. (200 L)	
APPLICATION AREA	NUMBER OF WSB'S
Greens	1
Fairways/Lawns	1-2
Roughs	1-2

Lake and Pond Colorant	
AREA	NUMBER OF PACKETS
1 acre-foot* (325,851 gal)	2 Packets
4 acre-feet*	8 Packets
8 acre-feet*	16 Packets

*1 acre-foot is an area of 1 acre, 1 foot deep.

STORAGE AND DISPOSAL

Storage: Store in a cool, dry place. Do not allow freezing. Protect product packets from exposure to moisture or high humidity. Do not handle with wet hands. Always reseal outer packaging immediately after the packets are removed. **Turf Marker Blue WSB Select** may appear to be slightly reddish in color, when in packet. The colorant is blue when added to water.

Disposal: Dispose of according to all state, local and federal regulations.
