

# TURF WET SELECT<sup>™</sup>

*High-performance hydrophobic soil treatment for tournament conditions*

**PRINCIPAL  
FUNCTIONING AGENTS**

Blend of alkoxyated  
polyols and polyglycol  
ether ester

**% ACTIVE INGREDIENT**  
100%

**FORMULATION**  
Concentrate

**MODE OF ACTION**  
Soil wetting agent

**RESTRICTED USE**  
No

**EPA REGISTRATION**  
N/A; All ingredients are  
exempt from tolerance  
under 40 CFR 180

**SIGNAL WORD**  
Caution

**PACKAGING**  
2 x 2.5 gal

**FOR USE WITH**  
Herbicides  
Insecticides  
Fertilizers

**LABELED USES**  
Tees  
Greens  
Fairways  
Lawns  
Sports turf  
Parks

The latest technology in non-ionic surfactants and soil wetting agents. The unique combination of surfactant complexes that comprise **Turf Wet Select**<sup>™</sup> make it radically different than most 30-day soil surfactants. It provides uniform hydration, enhanced water distribution, better drainage and more balanced air to water ratios in the soil profile.

The diverse construction of the **Turf Wet Select**<sup>™</sup> molecule, combined with the blend of several complementary surfactant components, places it above the competitive products in the market and provides turf managers with a supreme and consistently performing product.

## PRODUCT BENEFITS

- Extremely uniform hydration, penetration and soil rewetting characteristics
- Unique tri-block copolymer combined with high molecular weight surfactants
- Increased efficiency of water use
- Dew suppression
- Reduces LDS (localized dry spot)
- Reduced water stress
- Non-burning formulation
- Multi-component complex for unsurpassed performance
