

LAMBDA 2ME SELECT™

For effective control of indoor and outdoor insect and termite pests

ACTIVE INGREDIENT

Lambda-cyhalothrin –
Group 3A

% ACTIVE INGREDIENT

22.88%

FORMULATION

Microemulsion concentrate

CHEMICAL FAMILY

Pyrethroid

BRAND ALTERNATIVE

Demand® CS

MODE OF ACTION

Targets the central nervous system in target organisms. The main mechanism of action is interacting with voltage-gated sodium channels in neurons.

RESTRICTED USE

No

SIGNAL WORD

Caution

PACKAGING

12 x 1 pint

LABELED USES

Insect and termite pest control on turf, ornamentals and in and around residential, institutional, public, commercial, agricultural and industrial buildings

Lambda 2ME Select™ is a concentrated 2ME formulation of lambda-cyhalothrin for the control of insect pests and termites in both indoor and outdoor sites. For use in, on and around buildings and structures, as well as on turf, ornamental trees and shrubs around residential, institutional, public, commercial, agricultural and industrial buildings.

PRODUCT BENEFITS

- Provides quick knockdown and residual control of over 85 labeled pests
- Effective control of insect and termite pests on turf and ornamentals and in and around buildings
- Concentrated formulation contains 2.36 times more active ingredient than the competitive brand.
