Non-residential turfgrass

PBZ 2SC is a plant growth regulator which slows plant growth for up to 8 weeks after application. By limiting vertical growth, plant energy is redirected, strengthening root structure and promoting lateral growth. **PBZ 2SC** helps reduce maintenance costs by reducing mowing frequency while improving turf color, quality and density.

PRODUCT BENEFITS

- Reduced turf maintenance costs
- Slowed vertical growth and reduced mowing for 6-8 weeks
- Improve turf color, quality and density
- Reduced potential for scalping
- Suppression of *Poa annua*
- Improved playability due to increased turf density and reduced vertical growth
